GHSS, Koduvazhannoor, Trivandrum (70%)

Aug 2018 -Aug 2020

Technical Skills

- HTML, CSS, Java, sql, python

Training and Workshops

- Attended GIMP workshop organized by UIT pirappancode with IIT Bombay
- Attended a Full day Frontend Workshop

Academic Projects

- Share & Care - A Donation app for providing essentials to poor people.

- ✓ Designed and developed user-friendly interfaces for donors and collectors using HTML, CSS, and JavaScript.
- ✓ Developed MySQL database schema to manage user accounts, donation items, and pickup logistics.
- EVConnect- Electric vehicle charging station finder & reservation system.
 - ✓ Developed the user interface for EV users and implemented authentication and role-based access management using Django. Designed and created Django models to handle user data, station information, and reservation logic.
- AI Interview Coach- A resume based Mock interview Platform
 - ✓ Designed and developed the user interface for the mock interview platform and implemented resume upload and job role selection features. Integrated the Gemini API to generate tailored interview questions and used the Web Speech API for voice-based answers. Built the result analysis page with scoring, feedback, ideal answers, and print functionality.
